Electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. Trading on an electronic trading system may differ from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all. [Click Here](#) for complete internet trading guidelines according to SECP

Unpredictable transmission congestion or termination may occur on internet trading. Since internet is a mean of public communication media, interruption, or transmission inaccuracy of the related data may occur.

Stock prices provided in the snap-shot and real-time price quote does not reflect the transaction commission, stamp duty, and levy. All transaction charges will base on the trading agreement.
